

October 2008 Area Website

Printable programme sheets

A printable version of the 2008-9 area walks programme is now available on the WALKS page of the website. I understand that some groups are finding it useful to print off the current page of walks for use as hand-outs to new members who haven't yet received their walks booklet. Sheets of walks could also be copied for publicity purposes.

Photos and other contributions

Items to update group pages would be very welcome, including photos. Contrary to previous advice, anyone submitting a photo for inclusion on the website need not have the permission of all those appearing on it. As a matter of courtesy, however, anyone planning to send in photos may wish to mention that they intend to do this, giving individuals the opportunity to step aside.

Public transport walks

It is planned to include a new section on the WALKS page of suggestions for circular or linear walks which are accessible by public transport. All contributions are welcome, particularly if a description of the route can be provided as well as information regarding transport to the start and any useful contact details to check current timetables.

Out of date material

It is very helpful if Group Secretaries and other individuals can email me when they spot out of date material on a particular page.

Finally, thanks to all contributors,

Dany Włodarczyk
